TECHNICAL SKILLS

Front-End Development

- HTML, CSS, JavaScript
- React JS
- Tailwind, Bootstrap
- Swift UI, Story Board

Back-End Development

- . NET (API & MVC)
- Spring Boot
- Node JS

Programming Languages

Swift, Kotlin, Dart & Flutter, Python, Node JS, C# , C/C++, Java

Software & Technologies

GIT, VS Code, Figma
X code, Android Studio, MySQL

Other

- Cloud Computing
- AWS S3, EC2, Cloud 9
- MVC applications
- API applications
- Mobile Applications
- XML, JSON
- UNIX, LINUX
- Dev Ops / CI/CD Pipelines
- Solid Understanding of IEEE 802.3

EDUCATION

Sheridan College – Bachelors of Computer Science (Mobile Computing)

Year 3 Cumulative GPA – 3.4

PROJECTS

GYMPACT – 2022

- Developed a fitness application with an Exercise Tutorial and Cardio section utilizing SwiftUI and Xcode.
- Collaborated with a team to integrate additional features like a pedometer, real-time user database, and a fitness calendar.
- Enhanced user experience and engagement by providing diverse and interactive fitness functionalities in a single application.

SHOP TILL YOU DROP APPLICATION – 2023

- Engineered an iOS application using Swift that integrates Machine Learning for image-to-text recognition.
- Implemented Google Shopping API to allow users to search products either manually or by capturing photos.
- Contributed to a team-based project, streamlining the shopping experience by facilitating quick product lookups through images.

CATDOG APPLICATION – 2021

- Built an MVC web application for PROG20261 using Spring Boot and Java, focused on user roles and access control.
- Designed and implemented a user database where roles as 'cat' or 'dog' determined access to distinct website pages.
- Enhanced site security and personalization by assigning user roles, providing a tailored user experience based on their assigned role.

WORK EXPERIENCE / VOLUNTEER EXPERIENCE

LCBO (Seasonal Sales Representative)

December 1st 2020 - January 1st 2021 (1-month contract)

May 2021 – September 2021 (4-month contract)

networks & IEEE
802.11 networks

My main duties include operating the cash register, cleaning the store, and helping customers shop for their needs. Maintaining store displays was also an important daily task. I ensured all Covid-19 protocols were being followed at all times. Customer service was my best skill in this position.
